

# SEASTRONG™ PUMP

Seal-less Magnetic Drive Centrifugal Pump

ELECTROSEA®

# SEASTRONG

## SEAL-LESS MAGNETIC DRIVE CENTRIFUGAL PUMP

SeaStrong is a superior marine pump designed for reliable operation in the marine environment. It features a seal-less magnetically coupled drive inside a glass-fiber reinforced polypropylene pump head so it will not leak, tarnish or corrode. It is powered by a stainless steel, IP55 rated washdown motor that is rugged, performs and looks good year after year.

**SeaStrong**  
seal-less drive,  
glass filled  
polypropylene  
pump head and  
stainless motor  
are reliable and  
engineered  
for the marine  
environment

**Seal-less magnetic drive**

**GFPP will not tarnish**

**Stainless always looks sharp**

**Other Brands**  
leak at the shaft  
seal and pump  
head interface;  
and pump  
heads and  
motors corrode  
and tarnish

**Pump head tarnish**

**Pump motor rust**

**Seals leak at shaft**

## SEASTRONG IS SIMPLY A BETTER PUMP.

SeaStrong will not leak at the seals, corrode or tarnish even in the toughest marine environment, and is designed to ensure reliable performance and unparalleled pump durability.

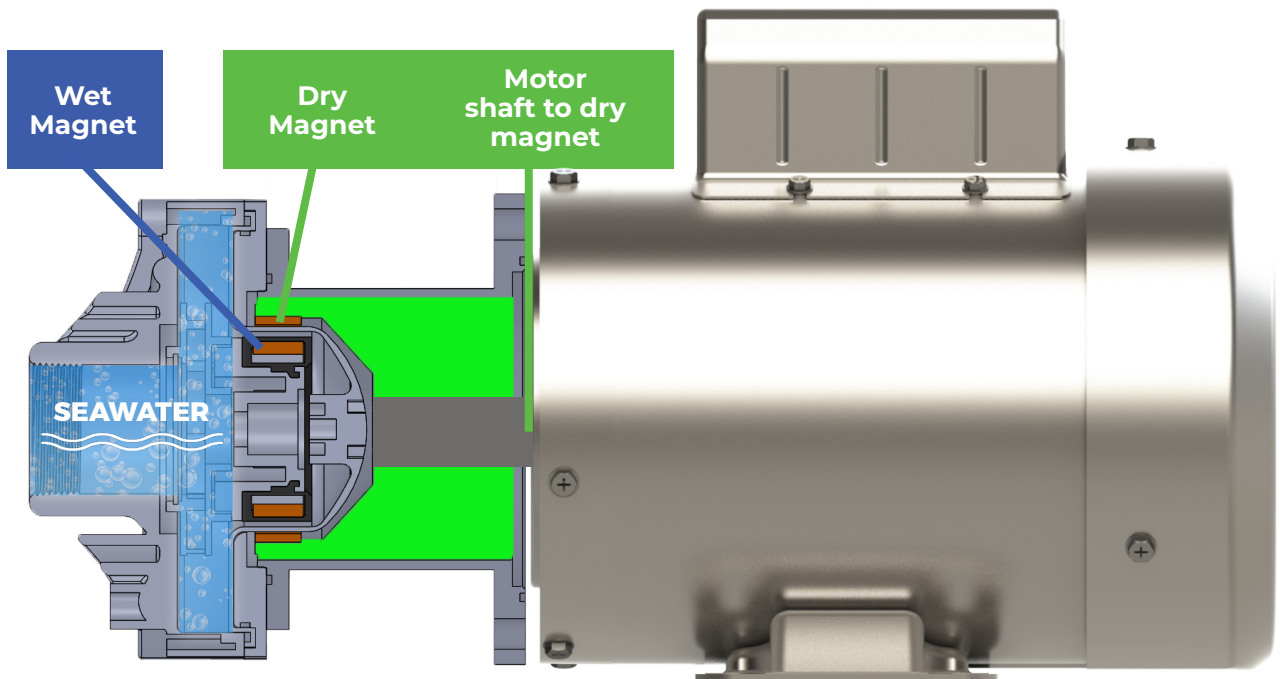

**AVAILABLE NEW BUILD OR REFIT**

Direct replacement for existing seawater pumps
