ALL-IN-ONE SYSTEM

ELECTROSTRAINER is the first all-in-one total seawater protection system that prevents marine growth from its strainer basket, and through all seawater lines.

NO GROW - MORE FLOW

ELECTROSTRAINER stops biofouling using advanced electrochlorination technology. This means fewer trips to the engine room to clean your sea strainer.

SMART FLOW MONITORING

ELECTROSTRAINER automatically alerts you if the strainer needs attention. Monitor flow rates at all times via real-time display.
